ASHLAND
CULTURE
OF PEACE
COMMISSION

November 26, 2018

To Whom it may Concern,

Spencer Barrett worked with the Ashland Culture of Peace Commission as a videographer during 2016 – 2017 as we were launching the early communications about our mission, projects and community values. Our mission is: A WORLD THAT WORKS FOR ALL, THE ASHLAND CULTURE OF PEACE - A community-wide movement dedicated to transforming our attitudes, behaviors, and institutions into ones that foster harmonious relationships with each other and the natural world. Spencer took this to heart.

During the time Spencer volunteered to work on these important messages, he would often say how happy he was to have the opportunity to work with us as these values are so important to him personally. He would often come up with an innovative way to bring these values to life for the video viewer which is both a skill and art. Spencer was dedicated to our mission and to service in the community.

I understand Spencer has made a major mistake recently and I do not know any details. I do know that Spencer is introspective, works hard for his goals, and will learn to keep on the right path from the consequences of his mistakes. If there is a way to utilize his skills as he is deepening the lessons learned, perhaps justice will be served and there will be a positive benefit all around.

Respectfully,

David Wick
